(GWMAGMAT126)

(GWMAGMAT1812)

- EXTREME WEIGHT CAPACITY
- HIGH-POWER MAGNETS
Rare earth magnets deliver exceptionally strong & secure hold on tools & parts
- PROTECTIVE OUTER LAYER
Equipped with premium PVC outer layer to shield surfaces from scratches & damage
- QUICKLY ATTACH & RELEASE
Built for fast, hassle-free attachment and removal on a range of automotive surfaces
- FLEXIBLE DESIGN
Sticks & conforms to ferrous surfaces like fenders & doors to keep tools & parts at close reach
- FLUID-RESISTANT SURFACE
Designed to repel automotive fluids, allowing for easy cleaning

Why ZeroSmog Shield Pro?

Inhale the essence of clean air.

The ZeroSmog Shield Pro ensures impeccable air quality by capturing solder particles and gases. Our filters are made up of EPA E10 (for particulates) and activated carbon (for gases).

Seamless & convenient
A quick & easy filter change enhances the user experience.

Stop & Go
Connect the ZeroSmog Shield Pro to high-end Weller soldering stations to automatically start & stop filtration when using the soldering iron.

Filter condition monitoring
The device's continuous filter status checks provide peace of mind knowing that the filter is doing its job.

ZeroSmog Shield Pro is suitable for: R&D, rework, training, laboratories, etc. It is designed for intermittent use. Filter needs to be changed after a use of approx. 300g solder wire (3.5% flux). For production line, we recommend our larger ZeroSmog filtration units.

Count on smart design
Compact design is space-saving, slim & stackable.

Seamless convenience for you
A quick & easy filter change enhances the user experience.

Work zone identification
The best extraction area for efficient filtration is clearly indicated by a bright work light
